All-in-one Workforce Management

Take control of your construction operations with Lumber's AI-powered platform, designed to streamline your back-office and field operations with smart automation, deep insights, and error-free precision.

Time Tracking

- Features geofencing, biometric verification, and real-time job costing to eliminate manual data entry and enable accurate job costing.

Payroll

- Shortens weekly payroll processes and reduces manual work.
- Handles overtime, taxes, prevailing wages, and certified payroll reports.
- Compliant with prevailing wages, minimum wages, and union payroll.

Job Scheduling

- Smart resource planning helps project managers efficiently assign crews and track capacity across construction sites.

Hiring & Onboarding

- Lumber's robust hiring and onboarding solution helps construction companies quickly find and onboard skilled workers, ensuring projects are staffed with the right talent from day one.

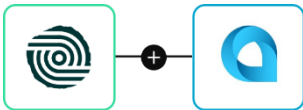

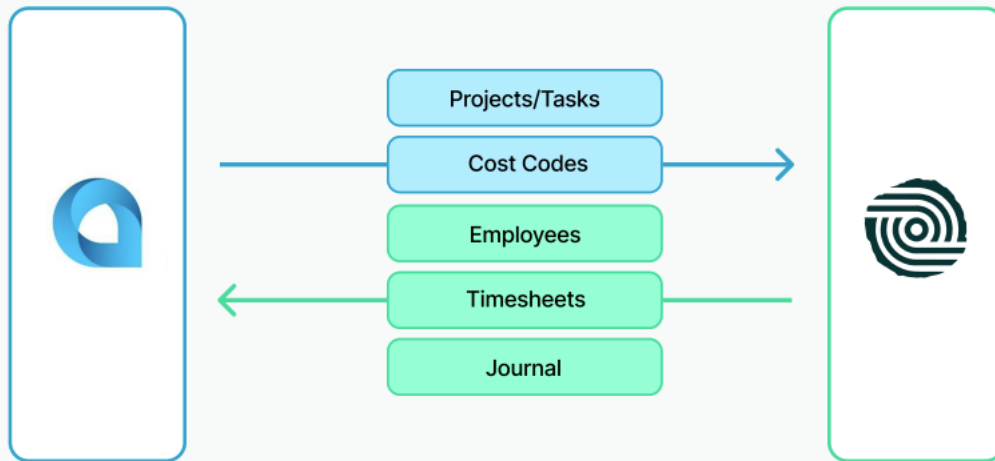

Benefits Administration

- Our comprehensive benefits administration solution simplifies employee benefits management for construction companies, providing a full-service offering with expert support and seamless payroll integration.

"Knowing that we are on a platform that is going to take us well into the future, I feel comfortable that we can invest and rely and build on Acumatica."

– Cassandra Moore, CFO, Alpha Insulation & Waterproofing

Seamless Integration

Lumber – Acumatica Integration

The integration with Acumatica allows for bi-directional data flow, syncing critical information such as company records, employee data, project locations, and cost codes. Lumber feeds accurate time tracking and payroll data directly into Acumatica, ensuring seamless journal entries and eliminating manual processes.

With Lumber and Acumatica, you get:

- Seamless integration with Acumatica for real-time data syncing and compliance.
- Time tracking with geo-fencing and biometric verification.
- AI automated payroll processing, minimizing errors.
- Smart job scheduling for efficient resource management and project costing.

ABOUT LUMBER

Lumber is the industry's leading all-in-one construction workforce management platform that streamlines payroll, time tracking, safety, compliance, field productivity, rewards, and recognition. Designed for specialty contractors, Lumber's AI-driven platform emphasizes compliance and safety, providing complete customization and deep tech stack integration.
